My Dear McTavish,

I wish I knew where to begin. It appears my suspicions were correct, and Blackwater Creek is indeed built upon the former site of Cade's Rest. I have discovered artifacts that give every indication of an early Colonial settlement ~~and remains which~~. There is so much more here, though, ~~so much more than I hear my mother sometimes. I know her voice. She's dead, but I hear her.~~

The cave is not just a myth. Cade tried to bury it, ~~but she is there and she never died.~~

I have procured some dynamite and I aim to open up the cave as soon as this damnable storm ends. ~~Even the wind sounds like her.~~

She needs me. I must free her. God forgive me.
